Time	Lecture title	Speaker: name, position, affiliation
October 20, 2026		
10:00-10:30	Opening of the Young Scientists School and welcome remarks by the organizers	Mikhail G. Babenko, Dr. Sci. (Phys.-Math.), Professor, Head of the Department of Computational Mathematics and Cybernetics, Faculty of Mathematics and Computer Science, North-Caucasus Federal University, Stavropol
10:30-12:00	Transformation of the threat landscape in the era of autonomous artificial intelligence systems	Alexander V. Kozachok, Dr. Sci. (Tech.), Professor, Head of Laboratory, V.P. Ivannikov Institute for System Programming of the Russian Academy of Sciences, Orel
12:00-13:30	On the application of artificial intelligence in industry: telecommunications network management and software development — common problems and different approaches to their solution	Dmitry V. Koznov, Dr. Sci. (Tech.), Professor, Department of System Programming, Saint Petersburg State University, Saint Petersburg
13:30-14:30	Lunch break	
14:30-16:00	Semi-automated search for scientific sources in information security using artificial intelligence	Igor D. Kotilevets, Associate Professor, Senior Lecturer, Department of Digital Data Processing Technologies, Institute of Cybersecurity and Digital Technologies, MIREA – Russian Technological University, Moscow
16:00-17:30	Application of computer vision technologies in medical intelligent systems	Andrey V. Rudenko, PhD, Senior Lecturer, Department of Computer Engineering and Modeling, Institute of Physics and Technology, V.I. Vernadsky Crimean Federal University, Simferopol
October 21, 2026		

09:00-10:30	“The War on PDFs”: why document analysis is “data hell” and how can we deal with it?	Andrey A. Mikhailov, PhD, Head of the Youth Laboratory of Artificial Intelligence, Data Processing and Analysis, V.M. Matrosov Institute for System Dynamics and Control Theory, Siberian Branch of the Russian Academy of Sciences, Irkutsk
10:30-12:00	Vulnerability of artificial intelligence models: methods for verifying data and model integrity	Marina A. Rudenko, PhD, Head of the Center for Artificial Intelligence and Big Data Analysis, V.I. Vernadsky Crimean Federal University, Simferopol
12:00-13:30	Security of multi-agent systems	Nina I. Romancheva, PhD, Dean of the Faculty of Applied Mathematics and Computer Engineering, Moscow State Technical University of Civil Aviation (MSTUCA), Moscow
October 22, 2026		
09:00-10:30	Modern methods of cryptanalysis	Evgeniya A. Ishchukova, PhD, Associate Professor, Institute of Computer Technologies and Information Security, Southern Federal University, Taganrog; Associate Professor, Maykop State Technological University, Maykop
10:30-12:00	Trustworthy artificial intelligence: achievements and prospects	Denis Y. Turdakov, PhD (Phys.-Math.), Head of the Research Center for Trustworthy Artificial Intelligence, V.P. Ivannikov Institute for System Programming of the Russian Academy of Sciences, Moscow
12:00-13:30	Artificial intelligence in program analysis	Andrey A. Belevantsev, Corresponding Member of the Russian Academy of Sciences, Dr. Sci. (Phys.-Math.), Head of the Laboratory of System Programming and Information Security, V.P. Ivannikov Institute for System Programming of the Russian Academy of Sciences, Moscow
13:30-14:30	Lunch break	
14:30-16:00	Optimization and protection of neural network models for modern computing devices	Maxim A. Deryabin, PhD, Researcher, Computing Systems Research Center, Samsung Advanced Institute of Technology (SAIT), Republic of Korea

16:00-17:30	Development of distributed application software packages	Alexander G. Feoktistov, Dr. Sci. (Tech.), Chief Researcher, Laboratory of Integrated Information Systems, V.M. Matrosov Institute for System Dynamics and Control Theory, Siberian Branch of the Russian Academy of Sciences, Irkutsk
October 23, 2026		
09:00-10:30	Continuous user authentication and combination of authentication methods	Evgeny Y. Kostyuchenko, PhD, Associate Professor, Head of the Research and Engineering Center “Intelligent Systems for Trusted Interaction”, Tomsk State University of Control Systems and Radioelectronics (TUSUR), Tomsk
10:30-12:00	Digital Ark: securing cultural code using artificial intelligence technologies	Irina A. Ivanova, PhD, Associate Professor, Head of the Department of Digital Data Processing Technologies, MIREA – Russian Technological University, Moscow
12:00-13:30	Security of cyber-physical systems using artificial intelligence	Elena S. Basan, PhD, Associate Professor, Southern Federal University, Taganrog
13:30	Closing of the Young Scientists School and summary	Mikhail G. Babenko, Dr. Sci. (Phys.-Math.), Professor, Head of the Department of Computational Mathematics and Cybernetics, Faculty of Mathematics and Computer Science, North-Caucasus Federal University, Stavropol
